

BIOGRAPHY

DOSSI AVITIMÈ

Supervisor, Agricultural Projects
SODEV International
Cotonou
Republic of Benin

“I started working for SODEV-Benin as an occasional agent years ago. I remember that for my job interview, I had the chance to talk directly with the director. This is not the case for all employees, since she does not reside in Benin. I was delighted with the tasks assigned because it was a question of supervising the agricultural palm groves and ensuring proper maintenance of the annex center at Adimalè. In fact, I have a lot of experience in carrying out agricultural work, having lived much of my life in rural areas. In addition, and before SODEV, with my children I was trading in palm nuts, and had qualified for loans for operating activities. My many years of experience in agricultural activities was a determining factor in my hiring.

“I enjoy working for SODEV and I participate in other activities of the organization as much as possible. I am very much inspired by the advice given to me by the director. I follow her instructions and recommendations for the proper performance of my duties and that is how I make the effort to contribute to the expansion of SODEV and its work.”
